Empower your customers to effortlessly navigate their flooring decisions, ensuring a seamless and satisfying experience from start to finish.

ENGINEERED HARDWOOD

Real White Oak/Hickory
ADD BEAUTY TO ANY ROOM

Wire Brushed Texture
EYE-CATCHING & ON TREND LOOK

Pet Friendly
SCRATCH RESISTANT

Lifetime Residential Warranty
PERFECT FOR EVERY ROOM

If your clients seek the finish of real wood with added durability, our waterproof engineered hardwood floors may be the answer. This technology combines a top natural wood layer with a fabricated core to deliver a timeless look with moisture resistant protection.

Our “good”, “better” and “best” rating levels are based on the following product criteria:

- Wear layer thickness and overall thickness of product
- Waterproof
- Product dimensions — Width of product and overall length
- Quality control at the factory for color
- Installation type: tongue & groove, glue down, click lock, or nail/staple.

All our featured collections are FloorScore® certified. This is a voluntary, independent certification program that tests hard surface flooring for emissions of Volatile Organic Compounds (VOC).

FAST & EASY

Lifetime Residential Warranty
PERFECT FOR EVERY ROOM

Our LVP floors pack a punch alongside their beauty; they resist water, prevent scratches, stand up to pets and high foot traffic, provide floor stability with fluctuating temperatures, and aid with sound reduction. Vinyl plank is known for its enduring properties to make it last for many years in residential applications. Each floor in our list features the Uniclic® patented joint locking system. This installation technology enables you to engage the flooring panels via two methods – angling and snapping. This is one of the easiest locking mechanisms for flooring installers.

Our “good”, “better” and “best” rating levels are based on the following product criteria:

- Surface wear layer thickness and texture
- Plank dimensions and their impact on room aesthetics
- Quality certifications including FloorScore® and sound ratings
- Designer approved trending colors
- Availability of matched mouldings
- Locking system type and ease of installation.

All our featured collections are FloorScore® certified. This is a voluntary, independent certification program that tests hard surface flooring for emissions of Volatile Organic Compounds (VOC).

LAMINATE FLOORING

Waterproof
WORRY FREE FLOORING

Pet Friendly
SCRATCH RESISTANT

Click Lock Installation
WATERPROOF WAX SEAL

Lifetime Residential Warranty
PERFECT FOR EVERY ROOM

Laminate flooring has always been a super durable surface: it won't scratch, dent, break or soak up water. Now it also looks and feels like real wood thanks to Embossed In Register (EIR) surface technology. This makes it a worthwhile competitor to any other flooring surface you look at.

- **REAL WOOD LOOK AND FEEL:** Embossed in Register (EIR) technology makes installed laminate flooring look and feel like real wood
- **WATERPROOF:** You can soak these boards in water for days and it will not affect them
- **ULTRA DURABLE:** Not only is it beautiful, it's impervious to scratches, dents and breaks. It's very hard to destroy this surface. And it also resists color changes from bright sunlight
- **FAST, EASY INSTALLATION:** Click-lock technology allows for quick and easy installation
- **SOFT, QUIET STEP:** A pre-attached underpad softens each step and adds noise reduction to a home
- **GREAT VALUE:** Less than half the cost of real wood and more durable.

All our featured collections are FloorScore® certified. This is a voluntary, independent certification program that tests hard surface flooring for emissions of Volatile Organic Compounds (VOC).
